

Hello everybody! How was the weekend?? I hope you are all okay. Today we aren't going to start the new unit, that would be tomorrow. Today I just want you to review unit 3. And for you to do it, I will give you some questions you have to answer of all the unit. It's a nice way of reviewing the unit, and preparing for the exam, whenever that would be...

So here they go! (IMPORTANT: It will take NO more than an hour, so you can do it today, as if we were in class and send it to me. BUT if you don't do it today, it's okay. You can send it to me whenever you do it. It is important that you do it today because tomorrow we are going to start the new unit, and you need to finish with this one before, but there is no hurry and there) (I will send to you the right answers in a couple of days, so you can check your answers)

- 1- Page 42: What happened in the earth before there was oxygen? And how did oxygen appear?
- 2- Page 43: Answer this short answer questions:
  - a. What is air?
  - b. What is the majority of the atmosphere made of?
  - c. Where does oxygen come from?
  - d. What is Carbon dioxide used for?
- 3- Page 44: What are the layers of the atmosphere? Write 2 characteristics of each one.
- 4- Page 45: Explain with your own words the greenhouse effect. Don't forget to use the following words: visible light, infrared radiation, warms the ground, absorbed, reflected, Heat, greenhouse gases.
- 5- Page 46: What is the atmospheric pressure? And why is it lower in Madrid than in Sierra de Guadarrama?
- 6- Page 47: What is the wind? And What is a low pressure area?
- 7- Page 48: What are clouds and why does precipitation happen?
- 8- Page 49: Looking at the climograph of this page, answer this questions:
  - a. What was the temperature in March
  - b. What was the precipitation in November
  - c. What was the hottest month?

Os recuerdo que aunque os parezcan muchas preguntas, ¡son cortitas! La única que es un poco más larga es la 4, el resto cortitas. Y tenéis el libro para mirar la respuesta, pero las respondéis con vuestras palabras. No vais a tardar más de una hora... de hecho será menos tiempo ya veréis. Y esto lo hago para que repaséis todo el tema de manera rápida que no leyéndolo todo otra vez. Así si os salen dudas me las preguntáis en mi correo. Ahí a mi correo es donde tenéis que mandar las actividades. Las mandáis cuando queráis, ya os lo he escrito arriba. Es mejor que las hagáis hoy y ya lo tengáis listo, pero si no podéis, otro día lo mandáis sin problema. ¡Hasta mañana!
